

## CloudSpark Troubleshooting Guide v2.1

### Issue: Connection Timeout

1. Check your internet connection.
2. Verify that the CloudSpark status page ([status.cloudspark.io](https://status.cloudspark.io)) shows all systems operational.
3. Ensure your firewall is not blocking port 443.

### Issue: Database Sync Error

Logs will show unique transaction IDs. Provide these to support.

Common cause: Mismatched schema versions.
